

Flash Alert Speed Limit Sign Spec Sheet

Our Flash Alert Speed Limit Signs are designed to enhance the visibility of speed zones and to remind drivers of the current speed limit. Whether in congested cities, or on rural and remote roadways, the Flash Alert Speed Limit Signs are visible in all weather conditions.

Flash Alert Systems operate 24 hours /7 days a week at top performance with our auto dimming and multi-stage battery charger features built into our smart controller.

FEATURES

- Simple installation
- Solar powered
- Choose between 5 MPH and 60 MPH in 5 MPH increments
- Automatic light output for maximum efficiency
- Visible day and night
- Super bright LEDs
- Compact battery box
- Ultra slim design

Solar Powered

With solar technology, this system can virtually be placed anywhere off the grid. With the “off the shelf” battery and smart controller housed behind the solar panel, installation is a snap.

Reflective Sign

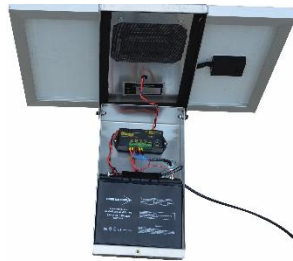

High intensity signage and MUTCD compliant.

Ultra-Bright LEDs

Our ultra-bright LEDs are one of the brightest in the industry and are completely weather proof. The LEDs will adjust brightness according to available light in order to conserve energy and battery life and maximize brightness.

Compact Battery Cabinet

- All controls hidden behind solar panel
- Off the shelf battery
- Smart controller
- Lightweight design
- Multi-stage battery charger
- Maximum power point tracking

Sign Design	Speed Limit
Sign Size	24" w X 30" h
Sign Material	High Intensity Prismatic Reflective
Solar Panel Wattage	30W
LED Color	White
Number of LEDs	4
