

ASSEMBLY INSTRUCTIONS

Cast Aluminum Round Table

Please read the instructions carefully before assembly.

Assemble the product on a clean soft surface to avoid scratches. Remove all protective material carefully. Identify all parts packed in the carton against the parts list.

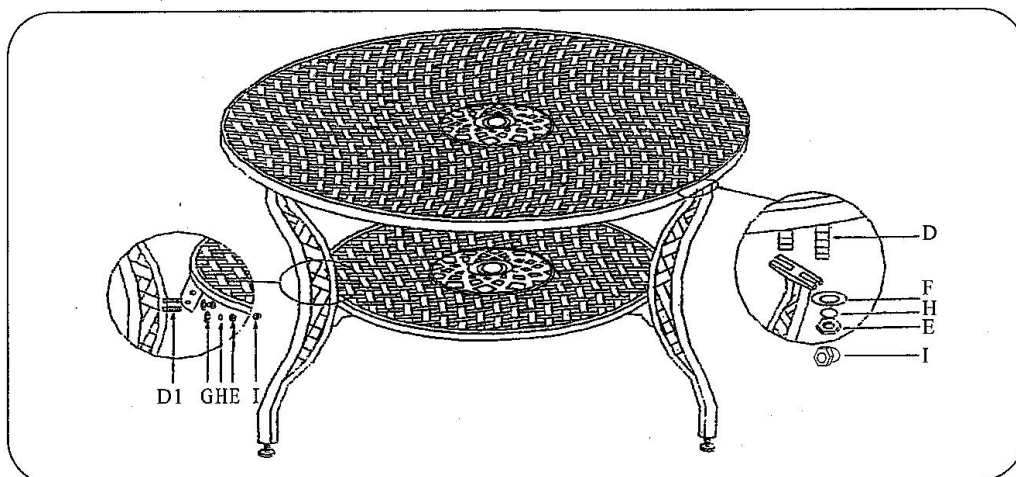

Please do not overtighten during assembly because aluminum is a soft metal and overtightening may strip threads or break parts. Tighten all nuts with your fingers first, and then tighten with a spanner or socket to finish assembly. Do not use a drill in the assembly process.

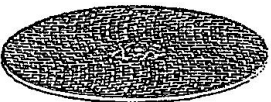

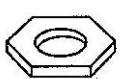

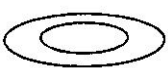

STEP 1. Screw the short studs (D1) into legs (C) using a screwdriver. Connect the shelf (B) to the legs (C) and attach the small flat washer (G), lock washer (H) and nut (E). Hand tighten only.

STEP 2. Place the tabletop (A) face down on a flat surface. Screw the long studs (D) into the holes and tighten with a screwdriver. Connect all legs (C) and attach the big flat washer (F), lock washer (H) and nut (E), then hand tighten.

STEP 3. Tighten all nuts with a spanner (don't over tighten) and attach the plastic caps.

Your table is now ready for use. The plastic feet can be adjusted to level the table.

Parts	Description	Quantity	Parts	Description	Quantity
A 	Tabletop	1	E 	Nut	16
B 	Shelf	1	F 	Big Flat Washer	8
C 	Leg	4	G 	Small Flat Washer	8
D 	Long Stud	8	H 	Lock Washer	16
D1 	Short Stud	8	I 	Plastic Cap	16
